

69. You fit an exponential distribution to the following data:

1000

1400

5300

7400

7600

Determine the coefficient of variation of the maximum likelihood estimate of the mean, θ .

(A) 0.33

(B) 0.45

(C) 0.70

(D) 1.00

(E) 1.21
