

52. Solution: B

Total cost = cost of .93809 units of Bond I + cost of .97561 units of Bond II =

$$.93809 \cdot 1040 v_{.03} + .97561 \cdot (25 v_{.035} + 1025 v_{.035}^2) = 1904.27$$
